

# Competency Based Questions and Answers in

# Anatomy

for First MBBS Professional Examination

### Including

- General Anatomy
- Thorax
- Abdomen and Pelvis
- Histology
- Embryology
- Limbs
- Head and Neck
- Neuroanatomy
- Genetics
- Ethics

### Why this book ?

The three main and major objectives of bringing out this book

1. To include all aspects of anatomy—general anatomy, gross anatomy, neuroanatomy, histology, and embryology in *one single book that can be used as a ready reckoner to revise everything just the day before the examination*
2. To make the student familiar with the *new types of questions that are being asked in university examinations for the CBME batch*
3. Most important reason is to help the students in *structuring their answers*. The answers to questions have been framed in such a way that the student will know how to present an answer effectively during the examination. Remember the *presentation of the answer in the examination is as important as the content in it*.

### Salient Features

- Questions and MCQs are prepared as per the CBME guidelines
- Contents have been written structurally and arranged as per the competencies set under CBME curriculum
- Included are traditional/unstructured long essays, modified/structured long essays, case-based questions, short essays, short answers, MCQs of various types and one marker questions in the form of fill in the blanks
- Supported with over 700 line diagrams, flowcharts and tables

### Editor

**Tejaswi HL** MD (Anatomy), (FAIMER-PSGFRI 2019)

is currently Associate Professor, Department of Anatomy, and the Coordinator, Medical Education Unit, Adichunchanagiri Institute of Medical Sciences, Adichunchanagiri University, Karnataka. He is a member of the academic council and board of studies of two reputed universities. He completed his graduation from Adichunchanagiri Institute of Medical Sciences in 2006 and postgraduation in anatomy from Mysore Medical College and Research Institute, Mysuru, in 2011 by securing the third rank in University examination. Teaching anatomy has been his love and passion for the last ten years of his service as a faculty.

has been founded and developed by a team of passionate doctors and entrepreneurs to bring out a series of high-quality study companions for the MBBS students as per the latest MCI syllabus. This is being the first venture among them. The Academy is also involved in preparing and delivering the content for upcoming NEXT. It encourages young doctors who have outstanding teaching and writing skills to collaborate in this unique project.
