Jnana Vigyana TantraJnana Mela 2017

Adichunchanagiri Mahasamsthana Matt organizes **Jnana Vigyana Tantrajnana Mela**

Every year, to create awareness among the public and school children about health, technology and ongoing research in sciences. The entire educational institutes under this trust participate in the exhibition.

Scientific Exhibition was organized on 20th and 21st Feb 2017. We the Dept. of Biochemistry participated with the theme of **-Halt the Rise –Beat Diabetes.**

1st year MBBS students of 2016-17 batch displayed the models and charts prepared by themselves under the guidelines of faculty on various topics such Symptoms of diabetes, Diabetic diet, Complications of diabetes, risk factors, prevention and Self-monitoring of blood glucose.

The students explained to the guests and visitors of mela about on various aspects of diabetes with the help of these models and charts. They also stressed on the diabetic diet and importance of physical activity in control of diabetes.

Student volunteers for the Mela
