DEPARTMENT OF PHYSIOLOGY
Summary of AETCOM Module 1.2

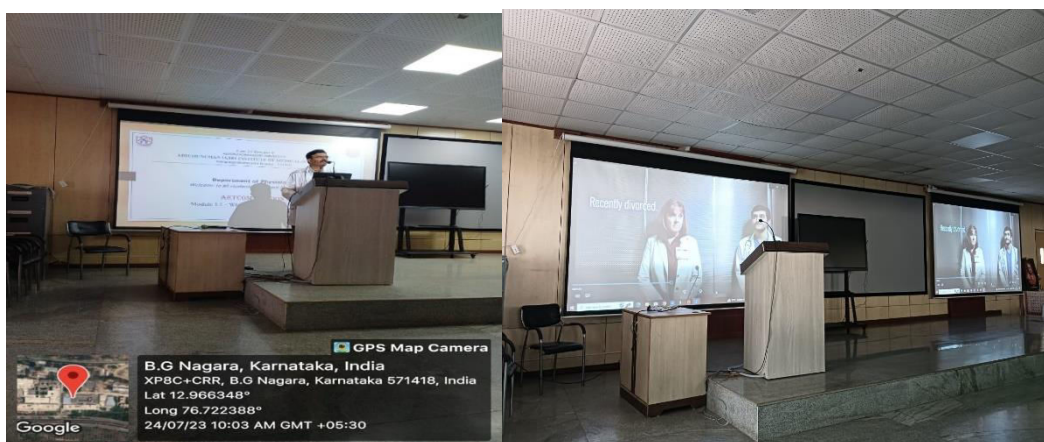

AETCOM Module 1.2 - What it means to be a patient? was conducted for 1st MBBS 2022 - 2023 Batch students on 24th July between 9 am – 5 pm.

Summary of day 1 (July 24th 2023): AETCOM Module 1.2 - What it means to be a patient?

The session began on 24th July 2023 with key note address by Dr Sudhir G.K. where he spoke about competencies related to the module and its objectives. Following this, a video on “Empathy” was shown to the students which demonstrated the different facets of a patient, relatives & health care personnel in the care of a patient & students reflected on the videos and expressed their views. It was moderated by Dr. Anand K.S.S. and Dr Sudhir G.K. It continued with sharing one’s experience as a patient or relative of a patient. In this context, faculty and students shared their experiences as a patient / patient relative, which was moderated by Dr Smitha N. Following this briefing on hospital visit & interaction with patients was done by Dr. Ravi G.N. Following this, students were taken to different wards in the hospital & were divided into small group of 6 each for interaction with one patient regarding history of their illness, suffering, expected care from doctors and nurses & any other problem related to their treatment.

In the afternoon students were divided into 6 small groups of 41 or 42 each under one faculty. Students were asked to give their reflection about the hospital visit and patients interaction. They were assigned to do SDL in the last session of the day with reflections writing in their log book. At the end, google form link was shared to students by Dr. Bhagyashree N. and collected responses and analysed it.
