DEPARTMENT OF PHYSIOLOGY
Summary of AETCOM Module 1.3

Summary of day 2 (July 26th 2023): The doctor – patient relationship

The session started with introduction and briefing of the module 1.3 by Dr Divyashree. Following this, a video on doctor – patient relationship was shown to the students which demonstrated the professional qualities of a doctor and empathy in patient encounters. Students reflected on video and expressed their views which was moderated by Dr Ravi GN.

Followed by this students performed role play on common errors in doctor – patient interaction based on different case scenarios. Few students who were there as observers had to reflect on the role plays and summarize it. Then students were assigned to give reflections on the module 1.3 and to write SDL in the last session of the day with reflections writing in their log book based on morning sessions. At the end, google form link was shared to students and collected responses and analysed it.
