NATIONAL MAMMOGRAPHY DAY

EXTENSION ACTIVITY IN THE DEPARTMENT OF RADIODIAGNOSIS

NATIONAL MAMMOGRAPHY DAY

The faculty of radio diagnosis are happy to announce that we had conducted the national mammography day on Friday, the 16th of October 2020, as a part of national breast cancer awareness month. This day serves as a reminder to all women that the best defence is early detection.

A mammogram can often detect a problem before there is any outward physical sign. So we conducted a 3 day screening event, free of cost from Friday, 16th of October to Monday, 19th of October and circulars were dispatched to the department of general surgery, OBG, and medicine regarding the same. Out of the numerous patients screened with mammography and Sono mammography, two patients were detected with BIRADS 4A breast lesions.

Awareness about early detection of breast cancer was imparted to the visiting female patients via informative pamphlets.

We requested everyone to utilise these services henceforth.

The department of Radio-Diagnosis is pleased to announce the celebration of international radiology day on 9th of November 2020, on annual event emphasizing the role of medical imaging in modern medicine with a focus on COVID-19 imaging for the year -2020

The day began with a address by the Head of the department of Radio-Diagnosis Dr.Shashi Kumar M.R to the formal gathering

This was followed by a brief talk on the discovery of X-rays by the esteemed chief guest Dr.B G Sagar.

The gathering was attended the entire staff, Postgraduates, technicians, bio medical engineers, nursing superintendent. The gathering was concluded by vote of thanks given by Dr.Divya G.A

A webinar was conducted following the formal gathering here Dr.Shashi Kumar M.R welcomed the speaker Dr.Sanjay MMC, MYSORE. Who gave a formative talk an radiologists and radiographers supporting COVID 19 patients followed by an address by Dr. Mohan Kumar Associate Professor AIMS bellur who concluded the webinar by given vote of thanks.
