World Nature Conservation Day

July 28, 2023

World Nature Conservation Day is observed on July 28th each year to raise awareness about the importance of preserving and protecting our natural environment. This day serves as a reminder for individuals, communities, and governments to take action to conserve and sustainably manage the Earth's resources.

Nature conservation is essential for maintaining the ecological balance, biodiversity, and overall well-being of the planet. It helps protect endangered species, preserve ecosystems, and combat climate change. Conserving nature also ensures the availability of natural resources for future generations and supports the livelihoods of millions of people who depend on these resources.

On the occasion of World Nature Conservation Day, Student support cell in association with NSS AIMS unit under the aegis of Ministry of Environment, Forest and Climate Change organised National Students Paryavaran Quiz Competition for Phase I, Phase II, Phase III (Part I & II) MBBS students, AIMS, B G Nagar on July 28,2023.

Dr. Manuja, Assistant Professor, Department of Community Medicine, coordinator, student support cell, addressed the students regarding dangers of uncontrolled climate devastation and also talked about competency and attitude to confront the environmental challenges and their mitigation and encouraged students to sow 10 seeds of any plant at their home.

Students were interactive and actively participated in Online Quiz Competition and seed planting activity.

World Nature Conservation Day serves as a reminder that the responsibility of preserving our planet lies with all of us. By fostering a culture of conservation, promoting sustainable practices, and supporting policy changes, we can collectively protect the environment for future generations and ensure a healthier and more resilient planet.

Every action, no matter how small, contributes to the greater cause of preserving the Earth's natural beauty and biodiversity. Let's join hands and work together to safeguard our precious natural heritage.
